ABOUT

I am a 25-year-old Front-End Engineer from Vietnam, born in 2000, and you can also call me Walter Cipher. I specialize in the React ecosystem and have experience working with TypeScript, Next.js, React.js, Node.js, and database management. Currently, I am passionate about learning UI/UX design.

In addition to my work as a Front-End Engineer, I also run a blog at **hieu-buiminh.io.vn**, where I share insights on web development, technology, and personal experiences. Through my blog, I aim to inspire and educate others in the tech community, as well as document my journey of continuous learning and growth.
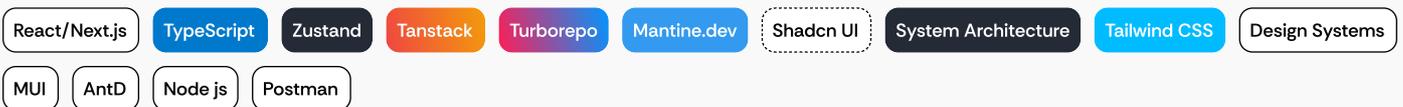

I love using **Next.js** to create a website. Then use **GitHub** to host my codebase. After that, I use **Vercel** to deploy it. Here are my current favorite tech stack
